Assessment of Final Presentation

Presentation Guidelines:
1. Presentation time is 30 minutes. You must strictly maintain time. You will have to stop at 30 minutes no matter where you are.
2. Contribution of each group member should be described at the beginning.
3. Presentation should demonstrate attainment of the performance indicators as in the Rubrics Table.
4. Slides should not contain too much text. Narration should supplement texts to be put on the slides. The slides should appeal the audience primarily visually. Try to use data through figures/diagrams/tables to support your argument. But DO NOT use photos/figures which do not carry any information or which do not have relevance.
5. Everything you show in the slides must serve the purpose of establishing your point in terms of performance indicators.
6. Do not read out the texts from the slides or from your notes.
7. All team members must share the time equally. Failure to do so will result in poor evaluation of all the team members.
8. Performance will be assessed individually.

Rubrics:

Presentation Criteria	Excellent (9-10)	Good (7-8)	Satisfactory (5-6)	Poor (1-4)
Project Idea & Feasibility Study	- Excellently presents the main purpose of the idea - Excellently presents the motivation for choosing the idea - Excellently ensuring a project is legally and	- Moderately presents the main purpose of the idea - Excellently presents the motivation for choosing the idea - Moderately ensuring a project is legally and technically feasible as	- Satisfactorily presents the main purpose of the idea - Satisfactorily presents the motivation for choosing the idea - Satisfactorily ensuring a project is legally and	- Poorly presents the main purpose of the idea - Poorly presents the motivation for choosing the idea - Poorly ensuring a project is legally and

Presentation Criteria	Excellent (9-10)	Good (7-8)	Satisfactory (5-6)	Poor (1-4)
	technically feasible as well as economically justifiable.	well as economically justifiable.	technically feasible as well as economically justifiable.	technically feasible as well as economically justifiable.
Project Plan	- Project Plan excellently describes major deliverables, deadlines and milestones and role of each team member.	- Project Plan moderately describes major deliverables, deadlines and milestones and role of each team member.	- Project Plan satisfactorily describes major deliverables, deadlines and milestones and role of each team member.	- Project Plan poorly describes major deliverables, deadlines and milestones and role of each team member.
Stakeholders	- Excellently describes role of all internal and external stakeholders.	- Moderately describes role of all internal and external stakeholders.	- Satisfactorily describes role of all internal and external stakeholders.	- Poorly describes role of all internal and external stakeholders.
System Architecture	- Excellently discuss the System Architecture to present the connectivity among the system components.	- Moderately discuss the System Architecture to present the connectivity among the system components.	- Satisfactorily discuss the System Architecture to present the connectivity among the system components.	- Poorly discuss the System Architecture to present the connectivity among the system components.
System Requirement Specifications	-Excellently User requirements and	- Moderately user requirements and system	- Satisfactorily user requirements and	- User requirements and system

Presentation Criteria	Excellent (9-10)	Good (7-8)	Satisfactory (5-6)	Poor (1-4)
	system requirements for each user requirement is specified along with functional and nonfunctional requirements. - Graphical representation of use case, activity diagram and sequence diagram are excellently presented.	requirements for each user requirement is specified along with functional and nonfunctional requirements. - Graphical representation of use case, activity diagram and sequence diagram are moderately presented.	system requirements for each user requirement is specified along with functional and nonfunctional requirements. - Graphical representation of use case, activity diagram and sequence diagram are satisfactorily presented.	requirements for each user requirement is specified along with functional and nonfunctional requirements poorly. - Graphical representation of use case, activity diagram and sequence diagram are presented poorly.
Project Prototype	- Excellently presents a working model of the product to address each functional requirements as discussed in SRS	- Moderately presents a working model of the product to address each functional requirements as discussed in SRS	- Satisfactorily presents a working model of the product to address each functional requirements as discussed in SRS	- Poorly Presents a working model of the product to address each functional requirements as discussed in SRS
Time Maintenance	- Overall allotted time is maintained during the presentation - Time is equally	- Overall allotted time is maintained during the presentation - Time is not equally	- Overall allotted time is exceeded by 5 minutes during the presentation - Time is not equally	- Overall allotted time is exceeded by more than 5 minutes during the presentation

Presentation Criteria	Excellent (9-10)	Good (7-8)	Satisfactory (5-6)	Poor (1-4)
	distributed among the group members.	distributed among the group members.	distributed among the group members.	- Time is not equally distributed among the group members.
PowerPoint Structure	-View is clear (Proper Color combination) - Proper font size is maintained - Text is less in each slide	-View is clear (Proper Color combination) - Proper font size is maintained - Text is too much in each slide	-View is clear (Proper Color combination) - Proper font size is not consistent - Text is too much in each slide	-View is not clear (Improper Color combination) - Proper font size is not consistent - Text is too much in each slide
Presentation Skill	-Way of presenting the topic is excellent - Having good pronunciation - Can clearly present ones topic	-Way of presenting the topic is good - Little problem with pronunciation - Can clearly present ones topic	-Way of presenting the topic is acceptable - A lot problems with pronunciation - Can clearly present ones topic	-Way of presenting the topic is not acceptable - A lot problems with pronunciation - Cannot clearly present ones topic
Question & Answer	Excellently addresses all the questions arisen by the examiner team.	Moderately addresses all the questions arisen by the examiner team.	Satisfactorily addresses all the questions arisen by the examiner team.	Poorly addresses all the questions arisen by the examiner team.
